

Simberian News: April 3, 2025

Subject: Join Our Webinar: How to Evaluate Crosstalk in High-Speed PCB Interconnects!

We're excited to invite you to our upcoming webinar, "**How to Evaluate Crosstalk in High-Speed PCB Interconnects**," happening on **Wednesday, April 16th, from 5:00 PM to 6:00 PM UTC**.

During this session, we'll explore four methods for crosstalk quantification—covering frequency, time, and probabilistic domains—through live demonstrations using Simbeor electromagnetic signal integrity software. Learn the best crosstalk evaluation practices and metrics for pre-layout and final PCB design, to optimize interconnects and avoid potential link failures.

Speaker: Yuriy Shlepnev, President & Founder of Simberian Inc., with a Ph.D. in computational electromagnetics and extensive expertise in high-speed interconnects.
